

Setting Up Application Environment

Docker Installation

Date	14 nov 2022
Team ID	PNT2022TMID46516
Project Name	Skill and Job Recommender Application
Team Members:	Sruthi.M,mahalakshmi.S,Nihid ha.M,Pa vithra.N,swathi.B

Step 1:

Go the official Docker website:

<https://docs.docker.com/desktop/install/windows-install/>

Step 2:

Click that button (Docker Desktop for Windows) and download will start and it takes few minutes to complete.

Step 3:

Go to downloads in browser (or) type `ctrl + J`, it will navigate to

download page and double-click the particular docker file.

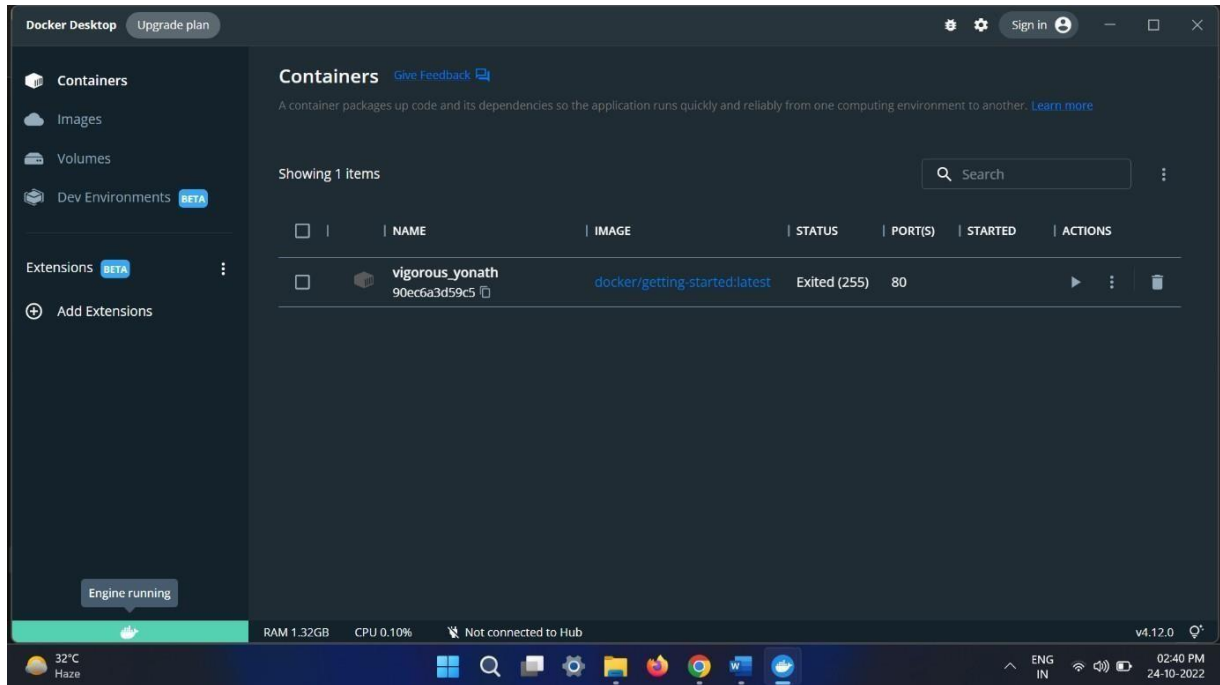

Step 4:

Now Installation is complete. This icon was added in your desktop.

Double-click the icon to start the docker app, you can register and login that app to access those credentials.

Step 5:

Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully.

Step 6:

Finally, the docker is installed successfully.
